

SPECIALTY FACEPLATES & 110-TYPE KEYSTONE JACKS

- Glow in the Dark and iMac Clear Faceplates
- Glow in the Dark and iMac Colored 110-Type Jacks

UNICOM's MIO+ (Multiport Information Outlet) faceplates come in low-profile with single gang outlets. They are available in Glow in the Dark or iMac clear and are compatible with UNICOM 110 Type Keystone Modular Jacks. The Enhanced Category 5, 110 Type Keystone Jacks, also referred to as Modular Jacks, are used with the MIO+ (Multi-Information-Outlet) for standard, low-profile, European and furniture. They are available in Glow in the Dark, or choose from five iMac colors including blueberry, grape, lime, strawberry, and tangerine. Both types are ideal for simple identification and description. The 110 Type Keystone Jacks are compatible with the UNICOM Expandable Surface Mount Module and Keystone Jack Patch Panel.
